REQUEST: That you lend your support to alleviate the ills brought about by computerized program trading

U.S. Rep. Mickey Edwards
House of Representatives
Office Building
Washington, D. C. 20510

Dear Congressman Edwards:

This program trading by some large brokerage firms and other greedy organizations leaves the small investor little alternative but to stay out of the stock market.

It certainly doesn't contribute to the productivity of industry. Neither does it provide funds for industry investment. It harks back to the greedy corporate raiders of the 1980's when our country was ripped off unmercifully by the likes of the hypocrites, Carl Icahn and Boone Pickens.

A voluntary ban on computer trading in a falling market won't cut the mustard. Some congressional guidelines for the SEC should be enacted.

Yours very truly,

Douglass L. Brazell
