Dear Herbert:

I think, as usual, your note of the 11th has an excellent suggestion.

I am spending the weekend here working on the Utility Bill. Anybody could have made a lot of money betting me at odds of 100 to 1 that I would spend a summer weekend in Washington, but I am planning to go home and start my vacation around the middle of next week. I might stop off in New York and have dinner with you and talk the whole situation over, probably on Tuesday night, if that would be convenient for you. At any rate you might give me a ring Monday and we can make some plans.

Kindest regards,

Honorable Herbert Bayard Swope
