

1622 Ferry Ave.  
Camden N.J.  
March 24, 1937

Chief Justice  
Charles Evans Hughes:  
U.S. Supreme Court.  
Washington, D.C.

Hon Sir –

Enclosed find editorial, which gives us a different story than your letter to Senator Burton K. Wheeler does, in which you claim, that in increasing the number of Justices on your Court, it will be impaired. Please study the enclosed editorial and examine your conscience and be honest with yourself and to the millions of your subjects, who are the sufferers of the Court's unfair decisions, which have been denying the masses their Constitutional, & impartial rights to a natural benefit of the Constitution.

You should bear in mind that the population has (over) tripled itself, since the present number of 9 men, on the Supreme Court, was set. Also, the Constitution was not made to serve the usurping Capitalists and the sweat shop industrialists alone, but to curb just such inhuman practices.

Sincerely,

Pete Samko
