MEMORANDUM

October 16, 1987

TO : David Ruder  
FROM : Linda Fienberg *Linda*  
RE : Richard Breeden

Richard Breeden called me on Thursday, October 15, to provide me with a recommendation for the NYRO administrator position. Additionally, he offered to come in to chat with you about financial services. As you may know, Breeden was one of the people intimately involved with the Bush Task Group. He has some concern that the banking regulators will attempt to obtain legislation that will leave the SEC out of the regulatory loop. If you would like, he would be happy to come in to talk with us about this. I thanked him and told him that I would get back to him.
