DPC DATA
DPC DATA, Inc.
10000
10000

DPC DATA, Inc. is designated a Nationally Recognized Municipal Securities Information Repository (NRMISIR) by the US Securities and Exchange Commission.

New From DPC DATA!

The Web's only direct link to complete - and timely - basic disclosure document content for municipal bond trading sites.

MuniDocsOnline™ is the Web's only complete source for municipal bond official statements, escrow documents, financial statements, continuing disclosure reports and material event notices in PDF format. This extremely valuable content is available as a click-through from your Web site at the line item offering level for access by your customers.

Our collection of online documents is updated throughout the day to give your customers access to the most current disclosure documents - all without the need to key in search criteria.

Can you afford *not* to make these documents available to your customers?

Here is how it works:

- We provide you with HTML code to add to your site to link to **MuniDocsOnline**. This code gives you the authorization and the vehicle for passing unique 9-digit CUSIPs to our site. It will appear on your site as a hyperlink or button with a descriptive label (such as 'Documents') *next to each individual bond offering*.
- Your customer can click on the link or button adjacent to any muni offering on your site and choose from a complete list of downloadable documents *that pertain to that specific offering*.
- When your customer selects documents to download from the list, s/he will pay for them by credit card on a secure server and then download the files using the browser and the FREE Adobe® Acrobat® Reader. You receive a commission on each document sale referred from your site.
- **MuniDocsOnline** appears as a pop-up window in a frame on your site. We will customize its appearance to blend with your design scheme.

Contact us today at 1-800-996-4747 for details and a test run.

MuniCREDIT ANALYTICS,
the most detailed financial analytical data...
at your fingertips over the Internet!

MuniCREDIT ANALYTICS covers:

- Airports
- Education
- Hospitals
- Power
- Tollroads

*Soon we'll be adding General Government
as well as Water & Sewer obligors.*

MuniCREDIT ANALYTICS is unmatched
for its detail and accuracy. The database of
financial statements is updated bi-weekly
from submissions to the **DPC DATA
NRMSIR***.

Financial statements are presented as
reported in the original audits in three
integrated formats:

- Original View, a faithful rendition of
the original financial statement
- Comparative View, a database
version that allows a side-by-side
comparison with other audits
- Summary View, a summarized view
of the Comparative View

With a click of the mouse, each financial
figure can be easily traced to the original
audit. Along with MuniANNUALS, you
can also see the original source document.

Each financial statement is also linked to
current socioeconomic data and *current
operating data* from:

- *Federal Aviation Administration*
- *Federal Highway Administration*
- *HCIA*
- *U.S. Department of Education*
- *U.S. Department of Energy*

Whether your needs are for information on a
specific credit, time series financial data, or
even comprehensive sector analysis, it's *all
at your fingertips* in this integrated system.
Your results can be easily exported to
popular spreadsheet programs.

Download our demo software from
www.municreditanalytics.com and try it for
yourself. The demo will allow you to search
our entire database for the financials that
you need.
